ADMS – Import .tab Souboru

Import tab souboru je celkem specifický, spustíme program ADMS (jedno jaká verze)

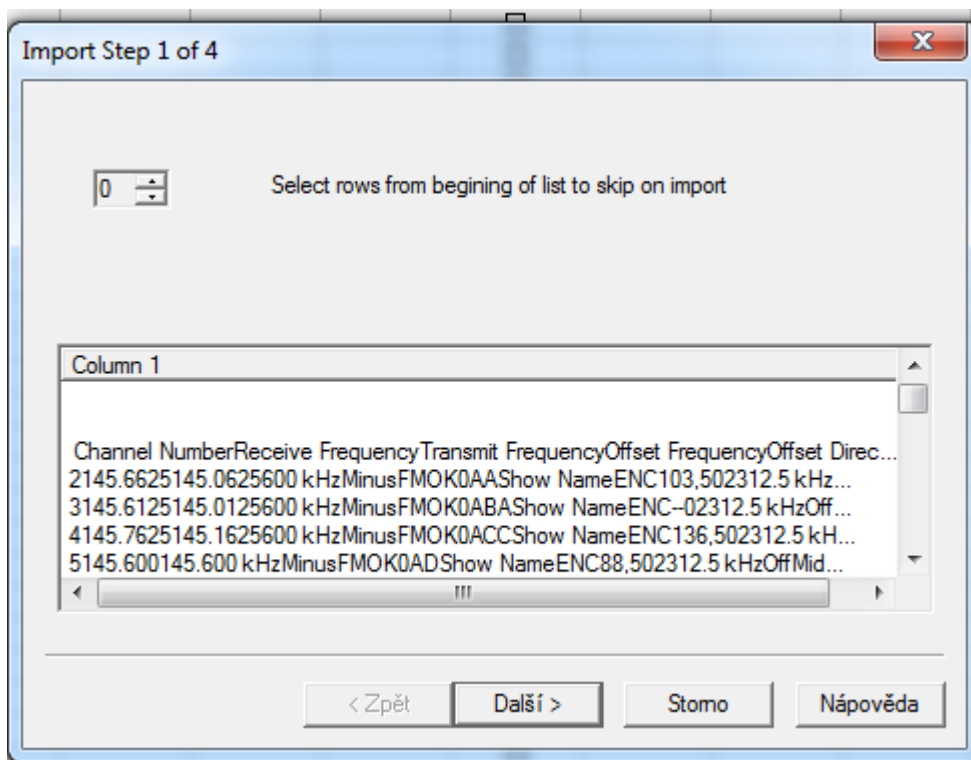

A najdeme tam Import a zvolíme příslušný soubor z webu

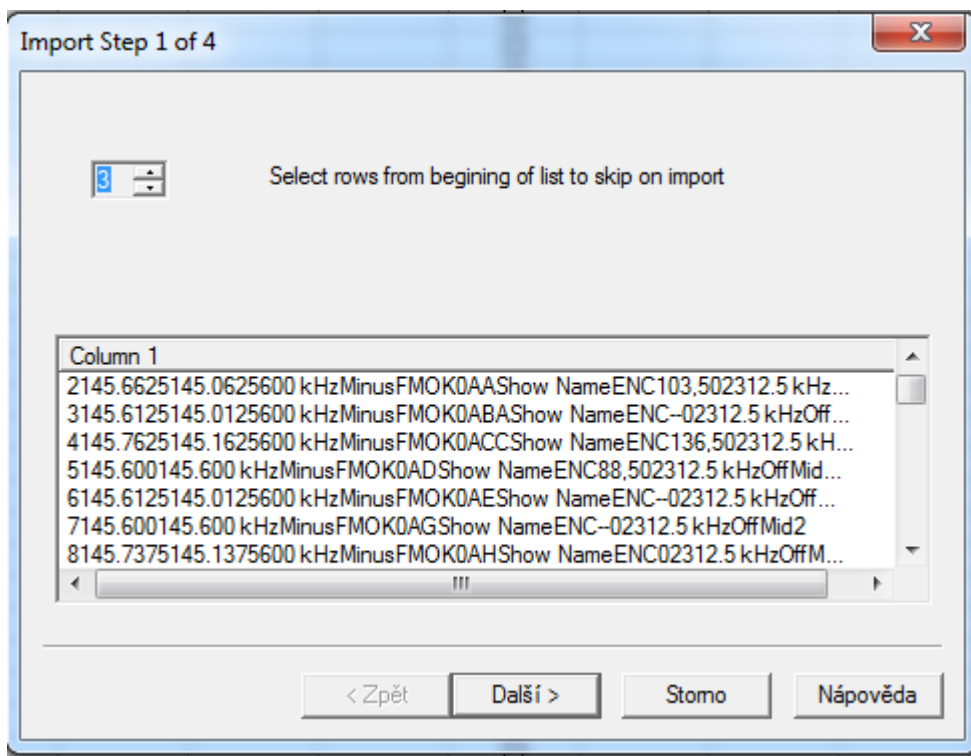

<http://prevadece.smoce.net/exparty/>

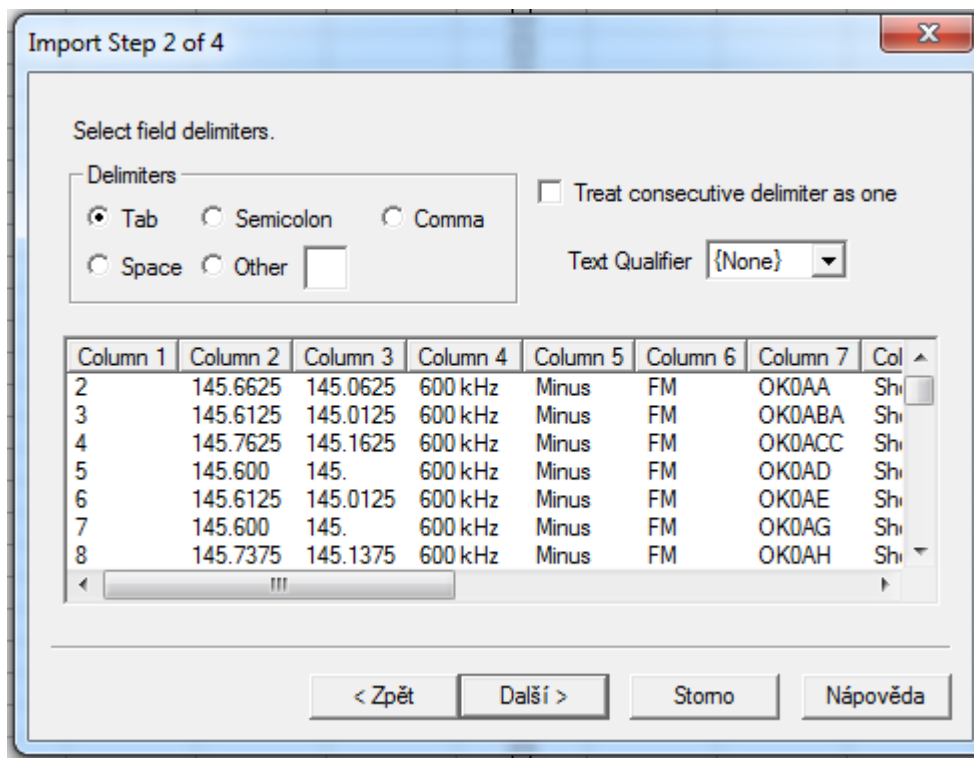

Po zvolení souboru vyskočí nám tabulka:

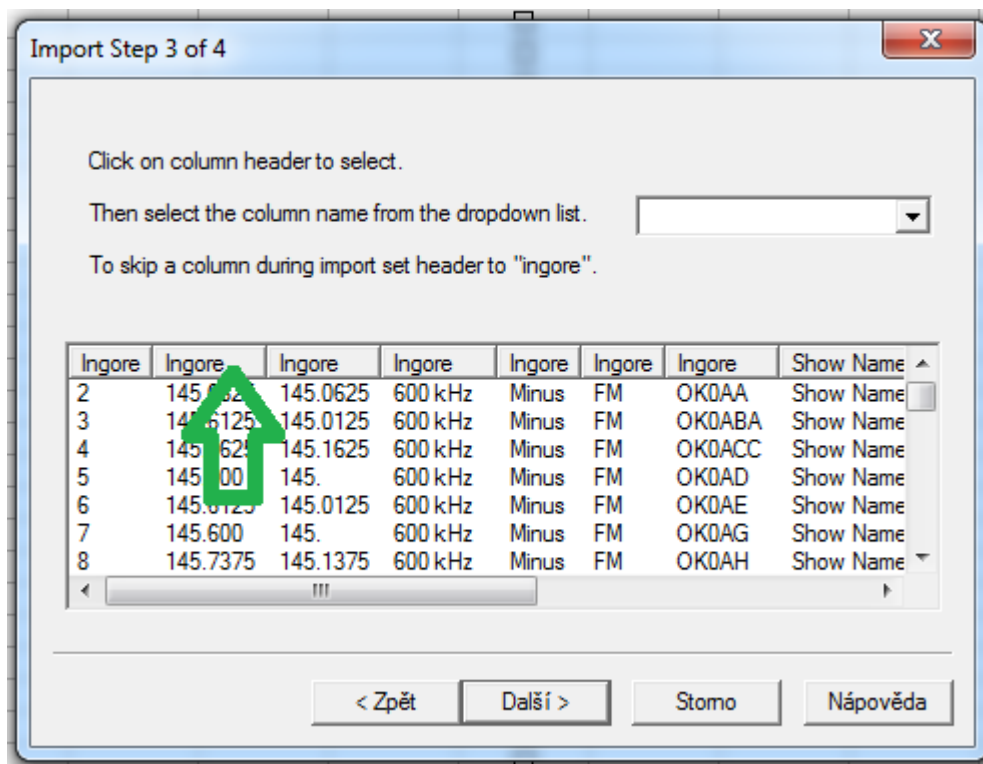

Tady musíme nastavit od kolikátého řádku jsou data, já vidím 3, tak nastavíme 3.

Dalším krokem je nastavení formátu souboru, to necháme na **TAB** a dáme **NEXT**.

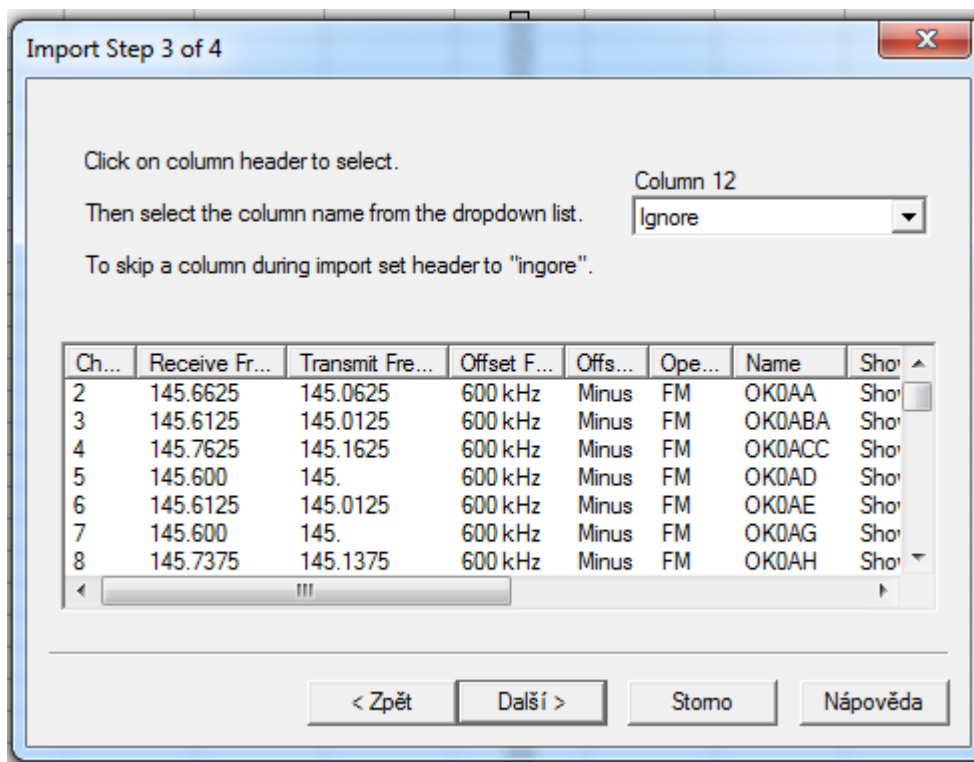

Krok 3 je trošku otravný ale je nutný...

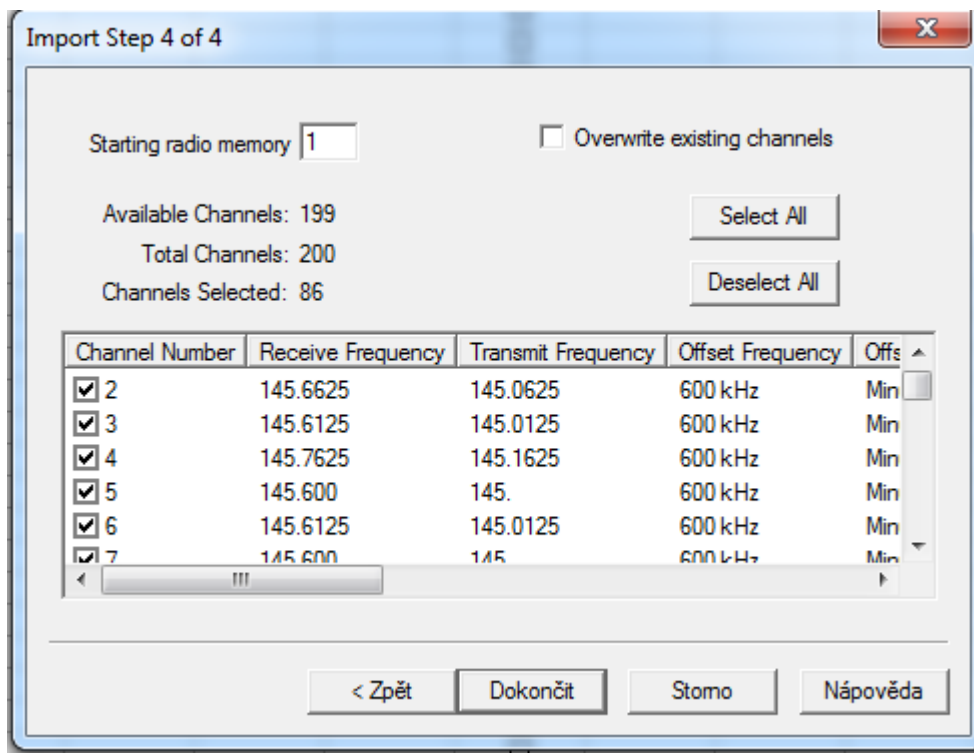

Tady musíme vždy kliknout na ignore, a ve scroll nabídce přiřadit správnou volbu.

V konečné fázi by to mělo vypadat takle:

Pokud jsme správně přiřadili k hodnotám jejich zákonné potomky, tak jdeme **NEXT**

Tady by mělo jít vidět již konečný výpis, můžeme i některý převaděč vynechat. Díky odškrknutí checkboxu. A Při dokončení nám by měl vzniknout hotový import.

Receive Frequency	Transmit Frequency	Offset Frequency	Offset Direction	Operating Mode	Name	Show Name	Encode Mode	Encode CTCSS	Encode DCS	Decode Mode	Decode CTCSS	Decode DCS	Skip	ATT	IPD	Frequency Step
1	7.00000	7.00000	100 kHz	Simplex	LSB		<input type="checkbox"/>	Off	188.5	023	Off	188.5	023	<input type="checkbox"/>	<input type="checkbox"/>	2.5 kHz
